	Extra credit					
	Rewrites (@ 10% of original word count)					0
	TOTALS	1040	0	8995	0	0
	GPA		0			

KEY

Deleted Assignments

Added Assignments

Not yet graded

Rewrite column (add 10% - see below)

Directions:

1) Fill in the number of points you received for each assignment in the "Your Grade" column. I've set up a formula so it will total automatically.

2) Fill in your word count for each assignment in the "Word Count" column. It will total automatically.

3) If you revised an assignment, calculate 10% of the original word count (i.e., 10% of 250 words is 25) and put that in the "Add 10% If You Revised" column. It will total automatically and be added to your total word count.
